Description

{tab title="Description" class="red solid"}

The WG300BF is not only perfectly balanced, it is also one of the lightest pneumatic wire wrap tools avaialble. The WG300BF is rated for heavy-duty applications wrapping 18 AWG wire, yet it is the ideal tool for delicate 32 AWG work. These tools are designed to operate at 80-100psi (6-7 BAR).

Repair / Maintenance Program:
Please be sure to read the User's Manual for proper maintenance procedures. Additionally, these tools should only be repaired by an authorized JDV Repair Facility or JDV Products. Please call JDV for more details on our repair programs.
